PROJECTS

E-commerce Store React

url : e-r.netlify.app

github: github.com/mohamed404eg/ecommercereact

Utilizing the React library, we are creating a highly interactive and responsive user interface that provides customers with a smooth and intuitive shopping experience.

Sky news arabia clone

url :mohamed404eg.github.io/news

github: github.com/mohamed404eg/news

This project is the user interface for a news website. Created with HTML, CSS, and a bit of JS, its layout is built using a combination of css-flex and css-grid.

Tech store

github: github.com/mohamed404eg/tech-store

An online store under development with next js and typescript
